

O.K.N.V.I . RESIST-5

Detect and identify the major Carbapenemases from 2 types of samples and Bacterial Culture

Flexible

✓ Positive Blood culture

✓ Rectal Swab

✓ Bacterial culture

No equipment needed !

ReSCape

NEW

For the screening of CP-BGN carriage by asymptomatic patient

- ✓ Reduced turn-around time (TAT)
- ✓ Better infection control management in outbreak setting

RESIST-BC

NEW

Fasten time of detection of CP-GNB in patients with bloodstream infection

- ✓ Faster medical decisions
- ✓ Help clinicians to optimize patient management

ReSCape

RESIST-BC

Save precious time, compared to conventional methods !!

Performance comparable to molecular methods

Products	Targets	Description	Codes
OXA-48 K-SET	OXA-48-like	20 cassettes, buffer, 20 tube-droppers	K-15R1
KPC K-SET	KPC	20 cassettes, buffer, 20 tube-droppers	K-15R2
RESIST-3 O.O.K. K-SET	OXA-48-like, OXA-163, KPC	20 cassettes, buffer, 20 tube-droppers	K-15R4
RESIST-3 O.K.N. K-SET	OXA-48-like, KPC, NDM	20 cassettes, buffer, 20 tube-droppers	K-15R5
OXA-23 K-SET	OXA-23-like	20 cassettes, buffer, 20 tube-droppers	K-15R7
O.K.N.V.I. RESIST-5	OXA-48-like, KPC, NDM, VIM, IMP	2x20 cassettes, buffer, 20 tube-droppers	K-15R11
RESIST-BC	OXA-48-like, KPC, NDM, VIM, IMP	Reagents kit for blood culture 1 RBCL solution, 1 MS buffer, 1 Washing buffer	S-1001
ReSCape	OXA-48-like, KPC, NDM, and VIM	Culture reagent kit for CP-GNB on rectal swab 20 CProbeBe_broth tubes, 2 antibiotics vials, 2 sterile water tubes	S-1002
