

PRO System
Rotary Microtome - Galileo Series 2

DIAPATH

Power to the PRO

The unique compact system that guarantees productivity and traceability

The PRO System is the All-In-One solution that allows memorizing the position of trimming of all samples and recalling it at the appropriate time for cutting. This allows to reduce the sectioning time and increase productivity.

The PRO System is compatible with the rotary microtomes line Galileo Series 2.

INNOVATION

The unique system integrated and managed via tablet, developed on Android platform capable of storing sample data

PRODUCTIVITY

30% improvement in production efficiency compared to current standards

TRACEABILITY

Data storage of infinite samples and operator traceability system (ID)

SMART AUTOMATION SYSTEM

Intelligent system that supports sample alignment thus improving operator time management

DESIGN

Design and functionality: compact system fully integrated into the microtome that reduces the overall dimensions of the cutting station by 60%

The PRO system is compatible with the rotary microtomes line Galileo Series 2.

Made in Italy

PATENT
PENDING

IVD CE

PRO System

Rotary Microtome - Galileo Series 2

Power to the PRO

The unique compact system that guarantees productivity and traceability

TABLET TO MANAGE FUNCTIONS

Innovative "Tablet Connected" Technology

INTEGRATED BARCODE READER

Space saving and easy to use

USERFRIENDLY ICONS

Intuitive "Icon Based" system

INTERNAL MEMORY

Allows to store infinite data that remain available over time

CABLE FREE

Integrated Bluetooth for connection without wires with microtomes from the rotary microtomes line Galileo Series 2

The system requires bio-cassettes printed with a data matrix code, barcode or QRcode in order to allow identification by means of an integrated barcode reader in the PRO system.

The PRO System includes:

tablet, tablet support, internal memory, integrated bluetooth.
