

## GLUCOMEDICS®

**GLUCOMEDICS®** is a glucose solution for oral loading, especially developed for the practice of diagnostic tests based on the metabolism of glucose.

### CHARACTERISTICS / ADVANTAGES

**GLUCOMEDICS®** is offered in bottles with a volume of 200ml, with three exact concentrations of glucose for each flavour : 50gr, 75gr y 100gr.

Composition with no colorants. Neither exist on it is formulation additional edulcorants and/or sweeteners.

Coloured bottles, yellow and orange, guarantee immediate visual identification of the flavor.

Practical and handy presentation: cartons of 12 pcs.

By eliminating plastic and carton waste from its packaging, environmental impact of it all is considerably reduced.

**GLUCOMEDICS®** is ready for its consumption. Best served chilled in order to get an easier and tasty ingest of the solution. Shake well before use.

Due to its formulation, **GLUCOMEDICS®** allows a shelf life of 24months at room temperature.

**GLUCOMEDICS®** quality control over the whole process is followed, and guarantees reliability of the results. Additional microbiological test are observed for each lot produced.

New and more attractive design, both labelling of bottles and packaging.
