

## QC Microbiology slides

### Quality control

Contain droplets of an air-dried, fixed preserved organism, or a smear containing a designated organism population

- Wide variety of controls for instant access to uncommon specimens
- Ready-to-use out of the box
- Each box contains 10 slides

REF N°	IMP Code	Product Name
SL01-10	5500727	S. aureus and E. coli control slide
SL10-10		Zinc PVA-preserved fecal smear control
SL15-10	5500680	SAF-preserved fecal smear control
SL40-10	8578153	Acid fast control slide
SL41-10	5500033	Mycobacterium control slide
SL45-10	5500279	Cryptosporidium control slide
SL50-10		FYC (culture isolates) control slide
SL60-10		MYC-D (clinical samples) control slide
SL70-10	5500681	Pneumocystis carinii control slide
SL75-10	5500575	Pneumocystis carinii two-well control slide
SL90-10	5500689	Blood parasite control slide
